

Video Conferencing for Virtual Council Meetings

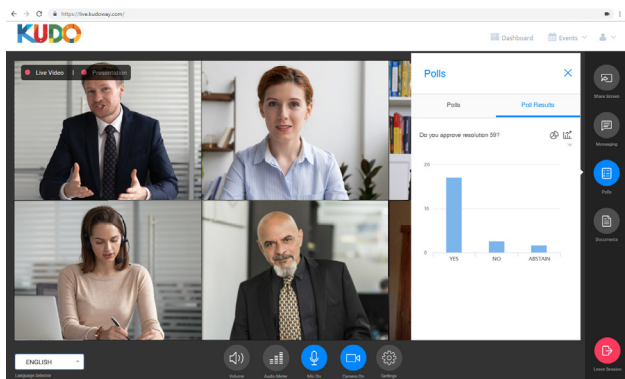

Council management expertise brought online

Our cloud-based video conferencing solution with moderated request to speak and electronic voting allows continuity for organizations that require critical decision making.

KUDO is a solution for:

- ▶ Managed remote council sessions for cities and towns
- ▶ School districts and local administrations
- ▶ Corporate board meetings
- ▶ Other essential web communication needs

Participants and operators can join their council session from any smartphone, tablet or computer.

"KUDO is a videoconferencing solution designed to facilitate executive decision making for governing bodies ; as close as you may get to a virtual council chamber"
- Fardad Zabetian
